

26 - Criar Medidas Complexas: Parte 1

1 Clique em "+" e "Restricted Measure"

2 Em Business Name, entre com o valor "Gross Sales All Countries"

3 Altere Source Measure para "GROSSAMOUNT"

The screenshot displays the SAP Data Builder interface for an analytic model named 'AN_Sales_00'. The central workspace shows a diagram with a 'Fact Sources (1)' box containing 'VW_SalesOrderItems_00'. This box is connected to 'PRODUCTID' (VW_Products_00) and 'SALESORDERID' (VW_SalesOrder_00). 'PRODUCTID' is further connected to 'CREATEDAT' (Time Dimension - Day). 'SALESORDERID' is connected to 'PARTNERID' (VW_BusinessPartners_00), which is then connected to 'ADDRESSID' (VW_Addresses_00). On the right, the 'Analytic Model Properties' pane is open, showing the 'Restricted Measure' configuration. The 'Business Name' is 'Gross Sales All Countries', the 'Technical Name' is 'Gross_Sales_All_Countries', and the 'Source Measure' is 'NETAMOUNT' (highlighted with an orange circle). The 'Aggregation Type' is set to 'Inherited (SUM)'. Below this, the 'Expression' section is visible, along with tabs for 'Dimensions (58)', 'Variables (0)', and 'Operators'.

4 Altere Constant Dimensions para "Selected Dimensions"

This screenshot shows the same SAP Data Builder interface as the previous one, but with the 'Constant Selection' section expanded in the 'Analytic Model Properties' pane. The 'Constant Dimensions' dropdown menu is open, showing options: 'None', 'None' (highlighted with an orange circle), 'All Dimensions', and 'Selected Dimensions'. The 'IS Auxiliary' checkbox is unchecked. The 'Exception Aggregation' section above it is set to 'No Exception Aggregation'. The 'Used in (0)' section below it shows the message 'Measure is not being used.'.

5

Em Selected Constant Dimensions seleccione "COUNTRY (ADDRESSID)"

The screenshot displays the SAP Analytics Cloud interface for an analytic model named "AN_Sales_00". The central workspace shows a fact table, "VW_SalesOrderItems_00", connected to five dimensions: "PRODUCTID" (VW_Products_00), "SALESORDERID" (VW_SalesOrder_00), "CREATEDAT" (Time Dimension - Day), "PARTNERID" (VW_BusinessPartners_00), and "ADDRESSID" (VW_Addresses_00). The "SALESORDERID" dimension is highlighted with a blue box.

On the right, the "Analytic Model Properties" panel is open, showing the "Constant Selection" section. The "Constant Dimensions" dropdown is set to "Selected Dimensions". Below it, the "Selected Constant Dimensions:" list shows "COu" selected. A red box highlights the "COUNTRY (ADDRESSID)" option, which is currently unchecked. A tooltip message "Selected dimensions: Select at least one constant dimension" is visible over the "COUNTRY (ADDRESSID)" option.

The "Repository" panel on the left lists the available data sources: "All", "VW_SalesOrderItems_00", and "4VF_SalesOrderItems". The "Layout" tab is set to "Top-Bottom", and the "Reset" button is visible.

6 Clique em "AN_Sales_<SEU ID>" para retornar

The screenshot displays the SAP Data Builder interface for configuring an analytic model. The central workspace shows a diagram with a fact source 'VW_SalesOrderItems_00' connected to several dimensions: 'PRODUCTID' (VW_Products_00), 'SALESORDERID' (VW_SalesOrder_00), 'CREATEDAT' (Time Dimension - Day), 'PARTNERID' (VW_BusinessPartners_00), and 'ADDRESSID' (VW_Addresses_00). The right-hand pane, 'Analytic Model Properties', is open, showing the 'Restricted Measure' section with 'AN_Sales_00' selected. Below it, 'Exception Aggregation' is set to 'No Exception Aggregation', and 'Constant Selection' shows 'COUNTRY (ADDRESSID) x' selected. The 'Settings' section has 'Is Auxiliary' unchecked.

7 Clique em "+" e "Calculated Measure"

The screenshot displays the SAP Data Builder interface for configuring an analytic model. The central workspace shows the same diagram as in step 6. The right-hand pane, 'Analytic Model Properties', is open, showing the 'Measures (8)' section. A '+' button is highlighted, and a dropdown menu is open, showing options: 'Calculated Measure', 'Restricted Measure', 'Count Distinct Measure', 'Currency Conversion Measure', and 'Non-Cumulative Measure'. The 'Calculated Measure' option is highlighted.

8 Em Business Name, entre com o valor "Share of All Countries"

9 Utilize a Expression "GROSSAMOUNT / Gross_Sales_All_Countries"

10 Clique em "AN_Sales_<SEU ID>" para retornar

The screenshot displays the SAP Data Builder interface for the analytic model 'AN_Sales_00'. The left sidebar shows the 'Repository' with a search bar and a list of objects: 'VW_SalesOrderItems_00' and '4VF_SalesOrderItems'. The main workspace shows a 'Top-Bottom' layout of the model. At the top, a 'Fact Sources (1)' box contains 'VW_SalesOrderItems_00'. Below it, 'PRODUCTID' (VW_Products_00) and 'SALESORDERID' (VW_SalesOrder_00) are connected to 'CREATEDAT' (Time Dimension - Day) and 'PARTNERID' (VW_BusinessPartners_00). 'PARTNERID' is further connected to 'ADDRESSID' (VW_Addresses_00). The right sidebar, 'Analytic Model Properties', shows the model's details: Name: AN_Sales_00, Technical Name: AN_Sales_00, Status: Deployed, and Deployed On: Jan 21, 2025 17:48:38. Below this, a list of measures is shown, including 'Average Price', 'Domestic Gross Sales', 'Gross Sales All Countries', and 'GROSSAMOUNT'.

11 Clique em "Deploy"

This screenshot shows the same SAP Data Builder interface as the previous one, but with the 'Deploy' button in the top toolbar highlighted with an orange circle. A white dialog box with the text 'Deploying...' and three blue dots is centered over the main workspace, indicating that the deployment process is in progress. The background interface remains the same, showing the model structure and properties.
